

Realhemp™ Seed Oil is Nature's Richest Source of Essential Fatty Acids

Our purification process uses only natural processes.

We first use food-grade bentonite clay or fuller's earth to filter the oil and remove impurities. Steam is then used to deodorize the oil. The resulting oil has a neutral taste, with little or no odor making it a perfect ingredient for a wide array of applications. Our purification process does little to alter the fatty acid profile of hemp oil, so all the health benefits are maintained.

Features

A clear oil with neutral flavor suitable for a wide array of applications.

- NO BHT and BHA ADDITIVES
- NO HEXANE SOLVENTS
- NON-GMO
- NON SOY

Filtered using food-grade bentonite clay or fuller's earth to remove impurities.

Deodorized using steam.

The purification process does not alter the fatty acid profile of the oil.
